

**I called 911 when I saw an overdose
even though I was afraid.**

**I know I made
the right choice
because
I saved a life.**

**Every second counts
during an overdose.**

Call 911.

Our daughter has overdosed before, so we knew what to do. But this time the Narcan wore off and we needed help.

Making that call saved her life.

Every second counts during an overdose.

Call 911.

Saving a life is the single most important thing anyone can do.

We're so glad someone called 911.

Every second counts during an overdose.

Call 911.
